

## 65 scientific studies

Health officials from China, Korea, India, Taiwan, Malaysia, Bahrain, Turkey, Jordan, United Arab Emirates, Qatar, Morocco, Algeria, Nigeria, Senegal, Cuba, Italy, and 65 scientific studies have shown Hydroxychloroquine (HCQ) is effective when used early against COVID19.

## Hydroxychloroquine is the first choice in a study of [6,000 doctors](#) treating the coronavirus.

The Association of American Physicians and Surgeons (<https://aapsonline.org>) filed a lawsuit against Department of Health and Human Services and the FDA for “irrational interference” by the FDA with timely access to hydroxychloroquine. Hydroxychloroquine is the first choice in a study of [6,000 doctors](#) treating the coronavirus.

In the field and in independent testing hydroxychloroquine displayed [amazing results](#) in treating the COVID-19 virus.

## White Paper on Hydroxychloroquine

This is the culmination of months-long research from all sources. It explains how Americans have come to be in the grip of fear. All the myths and all the misconceptions about a safe, generic drug that has been FDA approved for 65 years, given to pregnant women, breastfeeding women, children, the elderly and the immune-compromised for years and decades without complication, are finally put in the trash heap where they belong. You will have the indisputable proof that you have been massively lied to, often very intentionally. At first you will first be heartbroken. And then you will be furious. Good. Because then you will demand change.

## Compendium of HCQ Studies

The safety of HCQ is irrefutable. The evidence supporting HCQ efficacy against Covid-19 is also overwhelming. All negative HCQ studies have used either: too much, used it alone (it needs Zinc), or used it late (it should be early.) The treatment dose is 200 mg HCQ twice a day for five days + Zinc 50 (elemental) daily. The prophylactic dose is 400 mg HCQ weekly + Zinc 50 (elemental) daily. (There are studies right now to see if HCQ 200 mg. weekly is sufficient.) This is very low dose. (The usual dose of HCQ in Lupus, Rheumatoid Arthritis is 400 mg. daily for years.) There are telemedicine physicians who are aware of the facts and if you are concerned about this, please see one. It is also over the counter in many places in the world including Indonesia and most of South America.

## Italian Study 539 HCQ decreases deaths by 66%

New results from HCQ study in 539 Italian COVID-19 patients published in International Journal of Infectious Diseases. HCQ associated with 66% reduction in death. “Our results are remarkably similar to those shown by Arshad et al. [Henry Ford study].”

Chloroquine is a potent inhibitor of SARS coronavirus infection and spread <https://virologyj.biomedcentral.com/articles/10.1186/1743-422X-2-69?>

### **Dr Richard Bartlett starting prescribing budesonide**

Dr Richard Bartlett starting prescribing budesonide in March 2020, which they inhale through a nebulizer twice daily, and they are telling him that within one treatment they feel better.

<https://www.newsmax.com/us/steroid-covid-19-asthma-budesonide/2020/07/06/id/975952/>

Budesonide is a steroid, that can be inhaled directly to the lungs using a nebulizer.
